

Dagul S

Chemical Engineer | Quality Assurance Engineer

7338921319 · ch25m103@iitp.ac.in

Thiruverkadu, Chennai

[linkedin.com/in/s-dagul-574532325](https://www.linkedin.com/in/s-dagul-574532325)

SUMMARY

Enthusiastic and detail-oriented Chemical Engineering graduate with strong fundamentals in process design, chemical reactions, and materials science. Skilled in quality assurance and safety engineering practices through hands-on internship experience. Familiar with engineering software such as Dynamic Workbench Simulation. Currently pursuing Master of Technology with ongoing research focused on power cell and commercial cell development, emphasizing performance optimization and industrial application. Experienced in sustainable water treatment research using red algae as a biosorbent for heavy metal adsorption. Possesses strong analytical, problem-solving, and laboratory skills. Eager to contribute to innovative, efficient, and sustainable solutions in the chemical and energy industries.

INTERNSHIP

Quality Assurance Engineer

02/2023

Aavin Milk Colony

Madhavaram

Focused on the milk products meet specific quality standards and regulatory requirements before they reach consumers

- The Gerber test is a method used to determine the fat content in milk and dairy products, involving sulfuric acid and amyl alcohol to separate the fat.
- The Methylene Blue Reduction Test (MBRT) is used to assess the microbial quality of milk by measuring the time it takes for the dye to decolorize, with faster decolorization indicating higher bacterial content. This test provides an estimate of milk's sanitary quality and its suitability for consumption.

Safety Engineer

01/2023

PAREE Industries

Senneerkuppam

As a Safety Engineer for iron molding, your primary role is to ensure a safe working environment by

- Identifying hazards, implementing safety protocols, and ensuring compliance with health and safety regulations.
- Responsibilities include conducting risk assessments, developing safety training programs, and investigating accidents to prevent future incidents.

EDUCATION

Master's in Chemical Engineering

2025 - Present

Indian Institute of Technology

Tirupati,
GPA:7.25

Bachelor's in Chemical Engineering

2021 - 2025

Saveetha Engineering College

Thandalam,
CGPA:8.4

LANGUAGES

Tamil

Native

English

Advanced

STRENGTHS

Attention to Detail

Precision in designing processes and conducting experiments.

Team Collaboration

Effective teamwork skills, often gained through group projects and labs.

Commitment to Safety

Strong understanding and implementation of safety protocols and procedures

SKILLS

Technical Knowledge ·

Problem Solving ·Quality Control ·

Laboratory Skills Adaptability ·

Time Management

ACHIEVEMENTS

Innovative Research

Developed a report about a cost effective TIG Welding Electrode.

Internship

Completed internship at companies, contributing as a quality and safety engineer.

Certifications

Earned certifications in NPTEL For a ASPEN plus Simulation Software – A Basic Course for Beginners.
