Contact: 8217561319

Place: Bangalore

EDUCATION

M.Tech Chemical Engineering	2025-27	IIT Tirupati	-
1. B.Tech Biotechnology	2021-25		7.73 CGPA
2. Minor degree in CSE	2022-23	PES University	7.01 CGPA
AISSE (Class XII)	2021	PSBB LLA, Bengaluru	90.8%
AISCE (Class X)	2019	PSBB LLA, Bengaluru	92.4%

INTERNSHIPS

1. Intern, **G-KnowMe**, Bengaluru (remote) **January 2025 – present**
 - Developed and utilized an API to extract and process over 23,000 articles, streamlining data retrieval for analysis. Automated the extraction of structured data from 2,500+ clinical trials using web scraping, improving data accessibility for downstream analysis. Additionally curated clinical trials data for 400+ genes.
2. Intern + Trainee, **MSME & Food Network**, Remote **August 2024**
 - Training in food safety standards, regulations, processing techniques and legal metrology.
3. Summer Intern, **St. John's Research Institute**, Bengaluru **June 2024 – July 2024**
 - Analyzed and annotated 600+ breast cancer datasets using MS excel. Performed Image analysis of Tissue Micro Array (TMA) patient biopsy samples and researched on key biomarkers involved in breast cancer gene expression data using R. (GO & KEGG analysis).

ACADEMIC PROJECTS

- Image analysis of Fingerprints using Gauss Jordan method:** used python to analyze fingerprints by applying Gauss Jordan method, enhancing the fingerprint images and removing blocky effects.
- An Integrative Network Perspective: Gestational Diabetes Mellitus and Covid-19:** Comparative analysis of gene expression datasets of COVID-19 and Gestational Diabetes Mellitus conditions will unveil the hub genes and biological pathways contributing to the association.
- UK Bank data analysis using PowerBI:** Performed target customer analysis by normalizing and analyzing the bank data and created dashboard for customer analysis.
- Club membership:** Built a membership database using SQL to create a structured schema that organizes and manages member information.

SKILLS

- Programming Languages: Data structures in C, Python, R programming
- RDBMS (SQL), Linux OS, Power BI, Data Science (AI/ML).
- Good IT skills, including Microsoft Word, PowerPoint, Excel, Google Docs.
- Bioinformatic tools: MEGA X, PyMOL, PyRx, BioVIA, LigPLOT, ChemSketch, Scilab, DesignExpert.

ACADEMIC ACHIEVEMENTS

- Awarded the distinction award **Scholarship** by PES University for excellence in 3,5,6 semesters.
- Intern and Campus Ambassador for **Agnirva (an ISRO initiative)**, 2024.
- First place** in Waste to Wealth Hackathon, PES University, 2023.
- Secured **First place** in Idea-Thon Brainstorming event, 2021.

CERTIFICATIONS/ COURSES

- AI/ML (ProwessisAI):** Deep Learning & Neural Networks Advanced Algorithms (e.g., SVM, XGBoost) hyperparameter tuning & Model Optimization. – 2-month course. 2024-2025
- DATA SCIENCE (GFG):** Data Analysis, Statistics, Machine Learning, NLP, Deep Learning. 3-month course. 2024
- Introductory Omics and RNA seq Data analysis:** 3-day offline workshop- July 2024.
- DRUG GENESIS:** 3-month course - June 2022.
- FORENSIC AUTOPSY:** 1-month course – March 2022.
- PRAVEGA (IISC):** A two-day thorough workshop on Cancer Biology – June 2023.

EXTRA- CURRICULARS

- Avid runner, won in CBSE Athletics events, qualifying for CBSE National Athletic meets, (2014-2020).
- Passionate about stock market trends and investment strategies, with a strong understanding of market dynamics
- Volunteering for NMMS Teaching program and as a teaching assistant to support students with learning disabilities.
